# KIWOPRINT® D 159 NF

Screen-printable adhesive on acrylate basis

## Product benefits

- APEO free
- Improved printing properties compared to KIWOPRINT D 159 AF
- Easy to process
- High initial adhesion
- Good adhesion properties on a wide variety of substrates

**KIWO**

## KIWOPRINT® D 159 NF

KIWOPRINT D 159 NF is an advanced development of our proven KIWOPRINT D 159 AF (AF = APEO free) with improved printing properties. NF stands for New Formulation. Due to its properties, the adhesive is particularly suitable for the production of long-lasting, graphic articles with a self-adhesive surfaces – these applications require an initial adhesion strength.

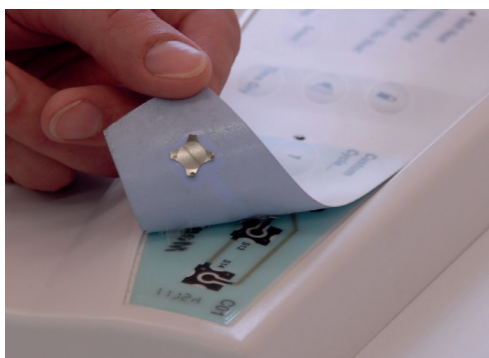

### Applications

- Stickers, labels and colour transfers
- Decorative film
- Operation and front film

### Properties

- Screen printable
- Basis: aqueous acrylate dispersion
- Very good UV stability
- Peel value 180° (immediately) : approx. 10 N/cm
- Peel value 180° (24 h): approx. 16 N/cm
- SAFT: > 95°C
- Tack: approx. 1300 g

To see the benefits for yourself, request samples for your hands-on test today.

## Adhesives by KIWO®
