

MECOPLUS® 4263 RE-L

Diluting agent and solvent-based cleaning agent for adhesives

MECOPLUS 4263 RE-L may be used to dilute a lot of adhesives. Details for the quantity to be added resp. to the type of adhesives, please see in the technical information of the resp. adhesive. Apart from this, MECOPLUS 4263 RE-L may also be used for the cleaning of adhesive residues as well as brush cleaner.

PROCESSING

As diluting agent: When required please add the amount of MECOPLUS 4263 RE-L, stated in the technical information, into the adhesive and mix it properly or add the diluting agent in portions into the adhesive until the required processing viscosity has been reached.

As cleaning agent: Apply MECOPLUS 4263 RE-L onto a piece of cloth or a cellulose strip and remove with this any adhesive residues. With tenacious stains you might have to repeat the procedure a few times.

Attention: With plastics surfaces, lacquered space and with processing tools prior to the use, MECOPLUS 4263 RE-L has to be checked on its suitability.

COLOUR	Colourless
DENSITY	0,8 g/cm ³ approx.
FLASHPOINT	-18° C approx.
HAZARD ADVISE/ ENVIRONMENTAL PROTECTION	Please note the advices in the safety data sheet.
STORING	2 years (at 20 to 25° C, in the original container)

This data sheet is for your information. A legally binding assurance of the product's suitability for a specific purpose cannot be derived from it and no liability can be assumed for any potential damages that may occur. Liability for damages due to a slightly negligent breach of duty on our part or on the part of our legal representative or vicarious agent is excluded. Our liability for damages due to injury to life, body or health is not covered by this limitation of liability. Our products are subject to continuous production and quality control and leave our company in perfect condition.

This product is intended solely for industrial applications and not for use by the end consumer. We recommend to our customers to always test the product themselves since only in this way – also after production – can the freedom from certain substances and the suitability for a particular purpose be verified. The user has to test the product for suitability for the intended application. We reserve the right to modify product specifications. Tests that are not part of the specifications of the product mentioned above have not been carried out. All information applies only to the above-mentioned product obtained from Kissel + Wolf GmbH. It corresponds to our current state of knowledge, but is not a confirmation of a particular application and is not automatically replenished.

All information is valid for a maximum of 12 months from the date stated above (annexes may be provided with their own date). Any industrial property rights as well as existing laws and regulations are to be observed by the recipient of our product on his own responsibility. Intellectual property rights of third parties must be observed. Our terms and conditions of sale and delivery shall apply.
